## PROFILE

Final-year BCA student (CGPA 8.5/10) working as a Software Engineer while pursuing my degree. I grew from SEO and content writing into full-stack development, QA testing, digital marketing, and enterprise data modeling through self-driven initiative. I independently built a React + TypeScript production website that led directly to a full-time hire. I am currently engineering an STTM automation tool and Erwin data models at Hiffai Tech Solutions, while learning the enterprise data modeling lifecycle (bronze → silver → gold) and software engineering best practices. McKinsey Forward Alumni. Actively working toward enterprise-scale cloud and AI roles.

## EXPERIENCE

### **Software Engineer & Data Modeler** · Hiffai Tech Solutions

*Nov 2025 : Present | Hyderabad*

- Building a production-level STTM Document Automation Tool in Python with cloud integration, actively shipped and not a prototype.
- Designing enterprise data models in Erwin across the full bronze → silver → gold medallion pipeline.
- Applying Python and SQL in a live production environment alongside software engineering best practices.
- Progressed from freelance contractor to full-time hire: client turned employer after delivery exceeded expectations.

### **Web Developer Intern** · Sam Data Services (Extended: 6 → 11 months)

*Jan 2025 : Nov 2025 | Hyderabad*

- Maintained and enhanced a .NET company website; authored 15+ SEO-optimised FAQ and product pages improving Google discoverability.
- Built WordPress landing pages, a WooCommerce e-commerce store, and a full client website for an interior design firm, delivered independently.
- Led end-to-end QA testing for a new software launch: researched market demand, tested all features, and produced structured feedback reports.
- Completed a Digital Marketing certification mid-internship and applied learnings directly to live campaigns.
- Produced software installation, licensing, and usage tutorial videos with post-production editing.

### **Freelance Developer & Digital Branding Consultant** · Independent

*2024 : 2025*

- Designed and delivered full digital branding for Premium Meats (USA): logos, flyers, and social media assets, managing all client communication independently across time zones.
- Tutored Drexel University students in foundational web development and provided project support.
- Independently scoped and delivered a React + Vite + TypeScript startup website with a working chatbot UI and five published blog posts for a founder with no clear brief, delivered far beyond scope and resulting in a full-time job offer.

## PROJECTS

**FarheenOS : Interactive Portfolio** · React, TypeScript, Three.js, Zustand, Framer Motion

Designed an OS-themed portfolio featuring a 3D museum, hidden terminal easter egg, and dynamic wallpaper system, built while actively learning Three.js and advanced React patterns.

**Network Intrusion Detection System** · Python, Scikit-learn, ANN, NSL-KDD

Compared SVM and ANN models on the NSL-KDD dataset. ANN achieved 98.46% accuracy after preprocessing and hyperparameter tuning.

**STTM Document Automation Tool** · Python, Cloud (In Production)

Currently building at Hiffai Tech Solutions: automates end-to-end processing of enterprise STTM documents at scale.

## SKILLS

**Languages:** Python, TypeScript, JavaScript, HTML, CSS, SQL

**Frameworks:** React, Vite, Three.js, Framer Motion, Zustand, WordPress, WooCommerce

**Data:** Erwin Data Modeling, Schema Design, Medallion Pipeline (Bronze → Silver → Gold)

**Cloud & Databricks:** AWS (certification in progress), Azure Fundamentals, Docker, Git, GitHub

**QA & Testing:** Software Feature Testing, Market Research, Feedback Documentation

**Digital:** SEO, Content Strategy, Digital Marketing, Video Editing

## EDUCATION

**Bachelor of Computer Applications (BCA)** : Osmania University, Hyderabad

Expected June–July 2026 | CGPA: 8.5 / 10

## CERTIFICATIONS & ACHIEVEMENTS

AWS Certified ML Engineer Associate : In Progress

McKinsey Forward Program : Alumni

Deloitte Forage : Technology Consulting Virtual Internship

Digital Marketing Course

T-Hub Innovation & Ideas Exchange : Participant
